Dear Clubhouse International Colleagues and Friends:

Welcome to the Clubhouse International World Seminar 2019. We are delighted to be here together in beautiful Norway!

The program over the next five days is designed to provide many opportunities for education, information sharing, and strengthening our Clubhouse network. We look forward to our days together, which we know will be infused with the warmth and welcome of our Clubhouse community; and the richness of our common values, mission, and passion for our work.

In keeping with our tradition, the vast majority of the presenters in our workshops, institutes and plenary sessions are Clubhouse members, staff and board members. We have also included some important friends of the Clubhouse community from the world of global mental advocacy. Thank you to all of the presenters for your hard work, thoughtful preparation, and eagerness to share your best practices, inspiring stories and innovative strategies.

This year marks the 25th anniversary of Clubhouse International. We could not think of a better way to celebrate than to be together with all of you!

Our theme this week is “Work, Wellness and Community: A Whole Person Perspective to Recovery.” We think this theme reflects the values expressed in our Standards, and the inspiration of the founders of the W.A.N.A. Society and Fountain House. We hope you will find the content of our Seminar rewarding, with both practical and challenging ideas that you can share with your local Clubhouse colleagues.

We are deeply grateful to our colleagues from Fontenehuset i Oslo and Fontenehus Norge/Clubhouse Norway. They have worked so hard to ensure the success of this Seminar, and their contributions and leadership have been invaluable. Norway is a thriving Clubhouse country, and we are delighted to be holding our World Seminar 2019 here!

Finally, thank you all for ‘belonging’ to the Clubhouse International community!

Sincerely,

Joel D. Corcoran
Executive Director

CLUBHOUSE INTERNATIONAL MISSION
Ending social and economic isolation for people with mental illness by growing the number and quality of Clubhouse rehabilitation programs worldwide.
September 2019

Dear Clubhouse International:

We all have a fundamental need to feel a sense of belonging and community. Especially so, perhaps, when times are tough.

Belonging and community come in different forms, but for most people, a job and a place in the community are key elements. Yet we know that far too many of those who are affected by mental health issues can end up without a job and with a sense of isolation.

The health service supports and follows up those in need of help. But preventing social exclusion and promoting inclusion require a more comprehensive approach. For this, we as a society must work closely with other operators. It’s the only way to provide secure social arenas for those who unwillingly find themselves on the outside.

The global Clubhouse International network has unique knowledge and skills in this field, both collectively and individually. Clubhouse International creates valuable meeting places. Individuals are treated with respect and equality, and mental health expertise is turned into a working partnership that promotes health and well-being. Here, individuals are taken for what they are – complete human beings with abilities and willpower.

I’d like to commend Clubhouse International for everything you do. The enormous work you put in on behalf of the individual, and for the good of society as a whole. For several decades now, your systematic efforts have benefited us all.

I’m honoured and delighted that you have chosen Norway to host this year’s world conference. It’s a great pleasure for me to welcome you to our neighbourhood, and to wish you all the very best for an eventful and inspirational stay.

Thank you!

Tone Wilhelmsen Trøen, President of the Storting

"Mental illness is not a personal failure.
In fact, if there is failure, it is to be found in the way we have responded to people with mental and brain disorders. I hope this will mark the beginning of a new public health era – to integrate mental health care into primary health care and the general health care system.”

Explore the continuum of employment from TE, SE, IE, IPS - and everything in between, including establishing a culture of employment throughout the work ordered day that will lead to strong employment outcomes, developing sustainable Transitional Employment jobs. We'll explore strategies for helping members do well in TE placements and creating a strong Supported Employment program, including using the IPS model as the SE method. Finally, we'll discuss how to support members to obtain full time jobs and move off of benefits/pensions.

CELEBRATING 25 YEARS: CHANGING THE WORLD OF MENTAL HEALTH
Dr. Gro Harlem Brundtland
Honoree, Rudyard n. Propst Award

The daughter of a physician and politician, Dr. Gro Harlem Brundtland received a medical degree from the University of Oslo and a master’s degree in public health from Harvard University. She began her career as a public health officer for the city of Oslo and for Oslo schools. A member of the Labour Party, she was appointed to the post of Prime Minister in 1981, the youngest person and first woman to become Prime Minister of Norway. She returned as Prime Minister in 1986–89 and served again from 1990–96 until her resignation. She served as Director-General of the World Health Organization from 1998-2003.

Dr. Brundtland became identified with public health during her tenure as Norway’s Prime Minister and later as Director-General of the World Health Organization (WHO). It was during her tenure at WHO that Dr. Brundtland advanced WHO’s work on mental health, bringing it “out of shadows”. During her tenure at WHO, mental health was discussed in the World Health Assembly, was the exclusive theme of the World Health Report and was also the topic for the World Health Day. It is the first time that WHO focused attention on mental health to such a large extent.

WHO’s work in mental health under Dr. Brundtland focused on human rights for persons with mental disorders, reform of mental health services, establishment of community based mental health services and suicide prevention.

It was also under her leadership that WHO began publishing Mental Health Atlas, providing critical information on mental health from all countries. This publication later became the one-stop-shop for global mental health data and continues to be published on a regular basis.

Dr. Brundtland has been supportive of establishing Norwegian Clubhouses since the very first Clubhouse in Holbergsgate, Fontenehuset i Oslo. From helping to establish the board to financial support and advocacy at the highest levels of the global mental health community, she has been unwavering in her support of both Norwegian Clubhouses and Clubhouse International for more than 20 years.

International Standards for Clubhouse Programs™

The International Standards for Clubhouse Programs, consensually agreed upon by the worldwide Clubhouse community, define the Clubhouse Model of rehabilitation. The principles expressed in these Standards are at the heart of the Clubhouse community’s success in helping people with mental illness to achieve social, financial, educational and vocational goals. The Standards also serve as a “bill of rights” for members and a code of ethics for staff, board and administrators. The Standards insist that a Clubhouse is a place that offers respect and opportunity to its members.

The Standards provide the basis for assessing Clubhouse quality, through the Clubhouse International Accreditation process.

Every two years the worldwide Clubhouse community reviews these Standards, and amends them as deemed necessary. The process is coordinated by the Clubhouse International Standards Review Committee, made up of members and staff of Accredited Clubhouses from around the world.

MEMBERSHIP

1. Membership is voluntary and without time limits.

2. The Clubhouse has control over its acceptance of new members. Membership is open to anyone with a history of mental illness, unless that person poses a significant and current threat to the general safety of the Clubhouse community.

3. Members choose the way they utilize the Clubhouse, and the staff with whom they work. There are no agreements, contracts, schedules, or rules intended to enforce participation of members.

4. All members have equal access to every Clubhouse opportunity with no differentiation based on diagnosis or level of functioning.

5. Members at their choice are involved in the writing of all records reflecting their participation in the Clubhouse. All such records are to be signed by both member and staff.

6. Members have a right to immediate re-entry into the Clubhouse community after any length of absence, unless their return poses a significant and current threat to the Clubhouse community.

7. The Clubhouse provides an effective reach out system to members who are not attending, becoming isolated in the community or hospitalized.

RELATIONSHIPS

8. All Clubhouse meetings are open to both members and staff. There are no formal member only meetings or formal staff only meetings where program decisions and member issues are discussed.

9. Clubhouse staff are sufficient to engage the membership, yet few enough to make carrying out their responsibilities impossible without member involvement.
10. Clubhouse staff have generalist roles. All staff share employment, housing, evening and weekend, holiday and unit responsibilities. Clubhouse staff do not divide their time between Clubhouse and other major work responsibilities that conflict with the unique nature of member/staff relationships.

11. Responsibility for the operation of the Clubhouse lies with the members and staff and ultimately with the Clubhouse director. Central to this responsibility is the engagement of members and staff in all aspects of Clubhouse operation.

SPACE

12. The Clubhouse has its own identity, including its own name, mailing address and telephone number.

13. The Clubhouse is located in its own physical space. It is separate from any mental health center or institutional settings, and is impermeable to other programs. The Clubhouse is designed to facilitate the work-ordered day and at the same time be attractive, adequate in size, and convey a sense of respect and dignity.

14. All Clubhouse space is member and staff accessible. There are no staff only or member only spaces.

WORK-ORDERED DAY

15. The work-ordered day engages members and staff together, side-by-side, in the running of the Clubhouse. The Clubhouse focuses on strengths, talents and abilities; therefore, the work-ordered day must not include medication clinics, day treatment or therapy programs within the Clubhouse.

16. The work done in the Clubhouse is exclusively the work generated by the Clubhouse in the operation and enhancement of the Clubhouse community. No work for outside individuals or agencies, whether for pay or not, is acceptable work in the Clubhouse. Members are not paid for any Clubhouse work, nor are there any artificial reward systems.

17. The Clubhouse is open at least five days a week. The work-ordered day parallels typical working hours.

18. The Clubhouse is organized into one or more work units, each of which has sufficient staff, members and meaningful work to sustain a full and engaging work-ordered day. Unit meetings are held to foster relationships as well as to organize and plan the work of the day.

19. All work in the Clubhouse is designed to help members regain self worth, purpose and confidence; it is not intended to be job specific training.

20. Members have the opportunity to participate in all the work of the Clubhouse, including administration, research, enrollment and orientation, reach out, hiring, training and evaluation of staff, public relations, advocacy and evaluation of Clubhouse effectiveness.

EMPLOYMENT

21. The Clubhouse enables its members to return to paid work through Transitional Employment, Supported Employment and Independent Employment; therefore, the Clubhouse does not provide employment to members through in-house businesses, segregated Clubhouse enterprises or sheltered workshops.

Transitional Employment

22. The Clubhouse offers its own Transitional Employment program, which provides as a right of membership opportunities for members to work on job placements in the labor market. As a defining characteristic of a
Clubhouse Transitional Employment program, the Clubhouse guarantees coverage on all placements during member absences. In addition the Transitional Employment program meets the following basic criteria.

a. The desire to work is the single most important factor determining placement opportunity.

b. Placement opportunities will continue to be available regardless of the level of success in previous placements.

c. Members work at the employer’s place of business.

d. Members are paid the prevailing wage rate, but at least minimum wage, directly by the employer.

e. Transitional Employment placements are drawn from a wide variety of job opportunities.

f. Transitional Employment placements are part-time and time-limited, generally 15 to 20 hours per week and from six to nine months in duration.

g. Selection and training of members on Transitional Employment is the responsibility of the Clubhouse, not the employer.

h. Clubhouse members and staff prepare reports on TE placements for all appropriate agencies dealing with members’ benefits.

i. Transitional Employment placements are managed by Clubhouse staff and members and not by TE specialists.

j. There are no TE placements within the Clubhouse. Transitional Employment placements at an auspice agency must be off site from the Clubhouse and meet all of the above criteria.

Supported and Independent Employment

23. The Clubhouse offers its own Supported and Independent Employment Programs to assist members to secure, sustain, and better their employment. As a defining characteristic of Clubhouse Supported Employment, the Clubhouse maintains a relationship with the working member and the employer. Members and staff in partnership determine the type, frequency and location of desired supports.

24. Members who are working independently continue to have available all Clubhouse supports and opportunities as well as participation in evening and weekend programs.

EDUCATION

25. The Clubhouse assists members to reach their vocational and educational goals by helping them take advantage of educational opportunities in the community. When the Clubhouse also provides an in-house education program, it significantly utilizes the teaching and tutoring skills of members.

FUNCTIONS OF THE HOUSE

26. The Clubhouse is located in an area where access to local transportation can be assured, both in terms of getting to and from the program and accessing TE opportunities. The Clubhouse provides or arranges for effective alternatives whenever access to public transportation is limited.

27. Community support services are provided by members and staff of the Clubhouse. Community support activities are centered in the work unit structure of the Clubhouse. They include helping with entitlements, housing and advocacy, promoting healthy lifestyles, as well as assistance in accessing quality medical, psychological, pharmacological and substance abuse services in the community.
28. The Clubhouse provides assistance, activities and opportunities designed to help members develop and maintain healthy lifestyles.

29. The Clubhouse is committed to securing a range of choices of safe, decent and affordable housing including independent living opportunities for all members. The Clubhouse has access to opportunities that meet these criteria, or if unavailable, the Clubhouse develops its own housing program. Clubhouse housing programs meet the following basic criteria.
   a. Members and staff manage the program together.
   b. Members who live there do so by choice.
   c. Members choose the location of their housing and their roommates.
   d. Policies and procedures are developed in a manner consistent with the rest of the Clubhouse culture.
   e. The level of support increases or decreases in response to the changing needs of the member.
   f. Members and staff actively reach out to help members keep their housing, especially during periods of hospitalization.

30. On a regular basis the Clubhouse conducts an objective evaluation of its effectiveness, including Clubhouse International Accreditation.

31. The Clubhouse director, members, staff and other appropriate persons participate in a comprehensive two or three week training program in the Clubhouse Model at a certified training base.

32. The Clubhouse has recreational and social programs during evenings and on weekends. Holidays are celebrated on the actual day they are observed.

**FUNDING, GOVERNANCE AND ADMINISTRATION**

33. The Clubhouse has an independent board of directors, or if it is affiliated with a sponsoring agency, has a separate advisory board comprised of individuals uniquely positioned to provide financial, legal, legislative, employment development, consumer and community support and advocacy for the Clubhouse.

34. The Clubhouse develops and maintains its own budget, approved by the board or supported by an advisory board, which provides input and recommendations prior to the beginning of the fiscal year and routinely monitors it during the year.

35. Staff salaries are competitive with comparable positions in the mental health field.

36. The Clubhouse has the support of appropriate mental health authorities and all necessary licenses and accreditations. The Clubhouse collaborates with people and organizations that can increase its effectiveness in the broader community.

37. The Clubhouse holds open forums and has procedures which enable members and staff to actively participate in decision making, generally by consensus, regarding governance, policy making, and the future direction and development of the Clubhouse.

Travel to Oslo

There are two kinds of local trains that you can take from Lillestrøm to Oslo. We recommend that you take the local train that uses the Oslo tunnel. Oslo S station is only a short 10-minute ride away. The next stop is the National Theatre station which is probably the most central station for the city of Oslo.

The other local train stops at all the local stations between Lillestrøm and Oslo S and has a journey time of about 26 minutes.

Purchasing tickets for the local train to Oslo is easy. Lillestrøm (Zone 2Ø) and Oslo (Zone 1) are in 2 adjacent travel zones. Buy a 2-zone ticket which is also valid for 90 minutes and includes all travel on the subway, trams, buses and boats in both zones. A 2-zone single ticket costs 59 NOK.

You can purchase tickets using the automatic ticket machines or from the Narvesen kiosks.

Important: It is your responsibility to ensure your ticket is validated before you travel.

Shopping

There is a small shopping center in Lillestrøm. In addition there are several large shopping centers close to Lillestrøm, only a short bus ride away. We can recommend Strømmen Storsenter, which is just 5 minutes and 2 stops away on the local train. Travelling to Strømmen requires a single 2-zone ticket which is valid for one hour.

The main shopping street in Oslo is Karl Johans Gate. The street starts in front the main railway station Oslo S. The street is just over 1km long and passes the Oslo Cathedral, the Norwegian Parliament (Stortinget), the National Theatre and the university, all the way to the Royal Palace. There are several small shopping arcades and the main department store Steen & Strøm along the way.

Aker Brygge only a few minutes walk from the National Theatre station, is an up-market shopping area with many popular restaurants and the famous Astrup Fearnley Museum of Modern Art.
Things To Do

There are many popular museums and sites to experience in Oslo. Check out the Oslo Guide booklet for some ideas and of course TripAdvisor. However, there are several places that we can recommend that are within easy reach and are also free.

The roof of the Opera House with its view over the Oslo fjord and new Bjørvika development, is one of Oslo’s most popular attractions for both locals and tourists. It is about a five-minute walk from the Oslo S railway station.

Vigeland Sculpture Park with more than 200 statues is one of Norway’s most visited attractions and is open 24/7. Take the subway to Majorstuen station (Note all subway trains going west stop at Majorstuen). The park is a ten-minute walk away. The park is also 2 stops away on the no 12 tram which leaves in front of Majorstuen station. If you would like to see a little of Oslo take tram 12 from in front of the Oslo S for the 20 minute journey to Majorstuen. Get off at Vigelandsparken.

For a fantastic view over the Oslo fjord, take the number 1 Subway into the Oslo forest all the way to Frognerseteren which takes 38 minutes. Café Frognerseteren is a short 6 minute walk away and offers spectacular views from its terrace.

Alternatively, you could hop off at Holmenkollen station on the same line and visit the home of ski jumping, the Holmenkollen Ski Jump, which also offers some unforgettable views across Oslo.

If you have a free evening and would like to visit a vibrant area full of bars and restaurants popular with the people of Oslo, then we can highly recommend the part of town known as Grünerløkka. Take a number 11, 12, or 13 tram from in front of Oslo S station to Birkeland. Check out the main streets Toftes Gate and Markveien.
