Creating Community: Changing the World of Mental Health

We understand that most Clubhouses around the world are currently experiencing a high degree of uncertainty, and are in the process of reorganizing core structures and routines in order to ensure the safety of your communities. **Consequently, we have decided to award an additional year of Accredited status to all currently Accredited Clubhouses that received their Accreditation reports prior to June 10, 2020.** We hope that this extra time will allow Clubhouses to fully focus on the immediate task of developing effective strategies to meet the needs of your membership during this unusual time.

We contact individual Clubhouses to schedule our next visit. If you have questions, please contact us!
