

Clubhouse International

Creating Community: Changing the World of Mental Health

Application for New Clubhouse Development Training

The primary purpose of Clubhouse International New Clubhouse Development Training is to assist groups to develop Clubhouses through autonomous, not-for-profit organizations. The application of any group without current plans to function as a separate and freestanding not-for-profit organization will be considered giving weight to that applicant's willingness and ability to create an empowered Advisory Board of community leaders. Group applicants must include representatives from at least two separate community organizations.

The New Clubhouse Development Training includes the following:

- An intensive 12 hour training course by Clubhouse International staff including an individualized and specific six month action plan. *The training is currently being conducted virtually.*
- Presentations from members, staff and board members from the host Clubhouse
- A manual including all training materials and additional resources.
- A guided tour of an Accredited Clubhouse
- Individual follow up from a seasoned Clubhouse International mentor for one year to achieve the objectives developed in the action plan.
- Access to Clubhouse International start-up group resources including an individual group web portal.

Cost for the training is \$1,800.00 per group (3-6 people). First, submit the completed application. If the application is accepted, then submit training fee.

Completed applications may be emailed to Jack Yatsko at [jyatsko@clubhouse-intl.org](mailto: jyatsko@clubhouse-intl.org)
